## HEAVY METALS

### Our Heavy Metal Test Specifications and Compliance Standards

At FullWell, we prioritize transparency and safety by testing every product lot for heavy metals and sharing the results with our customers. To ensure the highest safety standards, we adhere to California's Proposition 65 (Prop 65) limits, which are among the most stringent globally. For example, Prop 65 sets the maximum allowable daily exposure (MADL) for lead at 0.5 micrograms, significantly lower than other standards worldwide. In our test results, we report heavy metal content in micrograms (mcg) per capsule and per daily serving to ensure clarity and alignment with Prop 65's Safe Harbor Levels and MADLs where applicable. For more information, visit our site.

| TEST    | MCG/CAPSULE       | MCG/DAILY SERVING                     | PROP 65 TEST LIMITS      |
|---------|-------------------|---------------------------------------|--------------------------|
| Arsenic | 0.082 mcg/capsule | 0.246 mcg/daily serving of 3 capsules | <10 mcg/daily serving    |
| Cadmium | 0.030 mcg/capsule | 0.089 mcg/daily serving of 3 capsules | <4.1 mcg/daily serving   |
| Lead    | 0.076 mcg/capsule | 0.228 mcg/daily serving of 3 capsules | <0.5 mcg/daily serving   |
| Mercury | 0.001 mcg/capsule | 0.004 mcg/daily serving of 3 capsules | <0.3 mcg/daily serving † |

## ALLERGENS

| TEST   | RESULTS   | LIMITS     |
|--------|-----------|------------|
| Gluten | <4.0 ppm  | <20.0 ppm  |
| Soy    | <0.04 ppm | < 10 ppm** |
| Egg    | <1.0 ppm  | < 10 ppm** |

## OTHER CONTAMINANTS

| TEST       | RESULTS      | LIMITS    |
|------------|--------------|-----------|
| Glyphosate | Not detected | <0.1 ppm  |
| BPA        | Not detected | <0.04 ppm |

As a reproductive health company that makes products for women and their partners, including those who are trying to get pregnant, pregnant, postpartum and breastfeeding, we take an extremely conservative approach to safety by adopting and adhering to the most conservative standards that exist solely to protect the health and well-being of you, the consumer. We will never release a product that doesn't pass our strict specifications and quality control process. This ensures the highest level of safety and trust for our customers.

<sup>\*</sup>We use third-party testing through Eurofins, and other fully qualified, ISO 17025 accredited laboratories, to verify these results and ensure accuracy. Results have been transcribed into an easy-to-understand format. If you would like to request a copy of the original Certificate of Analysis, please email [cs@fullwellfertility.com](mailto:cs@fullwellfertility.com).

<sup>\*\*</sup>For total allergens.

<sup>†</sup> While Prop65 does not establish a MADL for mercury, many legal settlements within California have set precedence for a lower limit of 0.3mcg/day.

| Vitamin B12 (as Methylcobalamin)                            | INPUT*  | 400 - 600 mcg       | 400 mcg     | 100%   |
| Vitamin B7 (Biotin)                                         | INPUT*  | 1000 - 1500 mcg     | 1000 mcg    | 100%   |
| Vitamin B5 (Pantothenic Acid) (as d-Calcium Pantothenate)   | INPUT*  | 25 - 37.5 mg        | 25 mg       | 100%   |
| Choline (as Choline Bitartrate)                             | HPLC    | 100 - 150 mg        | 116 mg      | 116.0% |
| Calcium (as Tricalcium Phosphate)                           | INPUT*  | 50 - 62.5 mg        | 50 mg       | 100%   |
| Phosphorous (as Tricalcium Phosphate)                       | INPUT*  | 25 - 33.8 mg        | 25 mg       | 100%   |
| Iodine (as Potassium Iodine)                                | INPUT*  | 150 - 225 mcg       | 150 mcg     | 100%   |
| Magnesium (as Bisglycinate Chelate Buffered) (from Albion)  | ICP-OES | 50 - 62.5 mg        | 67.0 mg     | 134.0% |
| Zinc (as Zinc Bisglycinate Chelate) (from Albion)           | ICP-OES | 15 - 18.75 mg       | 16.1 mg     | 107.3% |
| Selenium (as L-Selenomethionine)                            | ICP-OES | 200 - 320 mcg       | 286 mcg     | 143.0% |
| Copper (as Copper Bisglycinate Chelate) (from Albion)       | ICP-OES | 45 - 56.25 mcg      | 53.3 mcg    | 118.4% |
| Manganese (as Manganese Bisglycinate Chelate) (from Albion) | INPUT*  | 3 - 3.75 mg         | 3 mg        | 100%   |
| Chromium (as Chromium Picolinate)                           | INPUT*  | 35 - 56 mcg         | 35 mcg      | 100%   |
| Molybdenum (as Molybdenum Glycinate Chelate) (from Albion)  | INPUT*  | 45 - 56.25 mcg      | 45 mcg      | 100%   |
| Proanthocyanidins (Grape Seed Extract (Vitis vinifera))     | INPUT*  | 99.75 - 119.7 mg    | 99.75 mg    | 100%   |
| Nicotinamide Adenine Dinucleotide (NADH)                    | INPUT*  | 2.5 - 3 mg          | 2.5 mg      | 100%   |
| ConcenTrace® Alfalfa                                        | INPUT*  | 75 - 90 mg          | 75 mg       | 100%   |
| Alpha Lipoic Acid (R- Alpha Lipoic Acid)                    | INPUT*  | 50 - 60 mg          | 50 mg       | 100%   |
| PQQ (Pyrroloquinoline Quinone Disodium Salt)                | INPUT*  | 10 - 12 mg          | 10 mg       | 100%   |
| Resveratrol (Polygonum Cuspidatum Root Extract)             | INPUT*  | 100 - 120 mg        | 100 mg      | 100%   |
| Coenzyme Q10 (Ubiquinone)                                   | INPUT*  | 100 - 120 mg        | 100 mg      | 100%   |
| Boron (Boron Glycinate) (from Albion)                       | INPUT*  | 3 - 3.6 mg          | 3 mg        | 100%   |
